**THE BENEFITS OF REGULAR EXERCISE**

*Do you want to feel better, have more energy and 'turn over a new leaf?'*

***Give exercise a go*** ..... the health benefits of regular exercise and physical activity should not be ignored. Exercise and activity are for everyone; regardless of age, gender or experience.

Exercise can help prevent excess weight gain or simply help to maintain your weight loss. Engaging in physical activity burns calories and the more intense the activity the more calories you burn. You don't need to hit a gym or give up hours of your day to exercise. However, getting more active during the day is a great way to start. Brisk walk, taking stairs and generally revving up your daily chores can help burn more calories a day.

**BELATED BIRTHDAY WISHES**
